

# Workshop Quality Assurance on a local level

Inger Ekvall & Ida Krogh Sjöholm  
Scouterna, The Guides and Scouts of Sweden

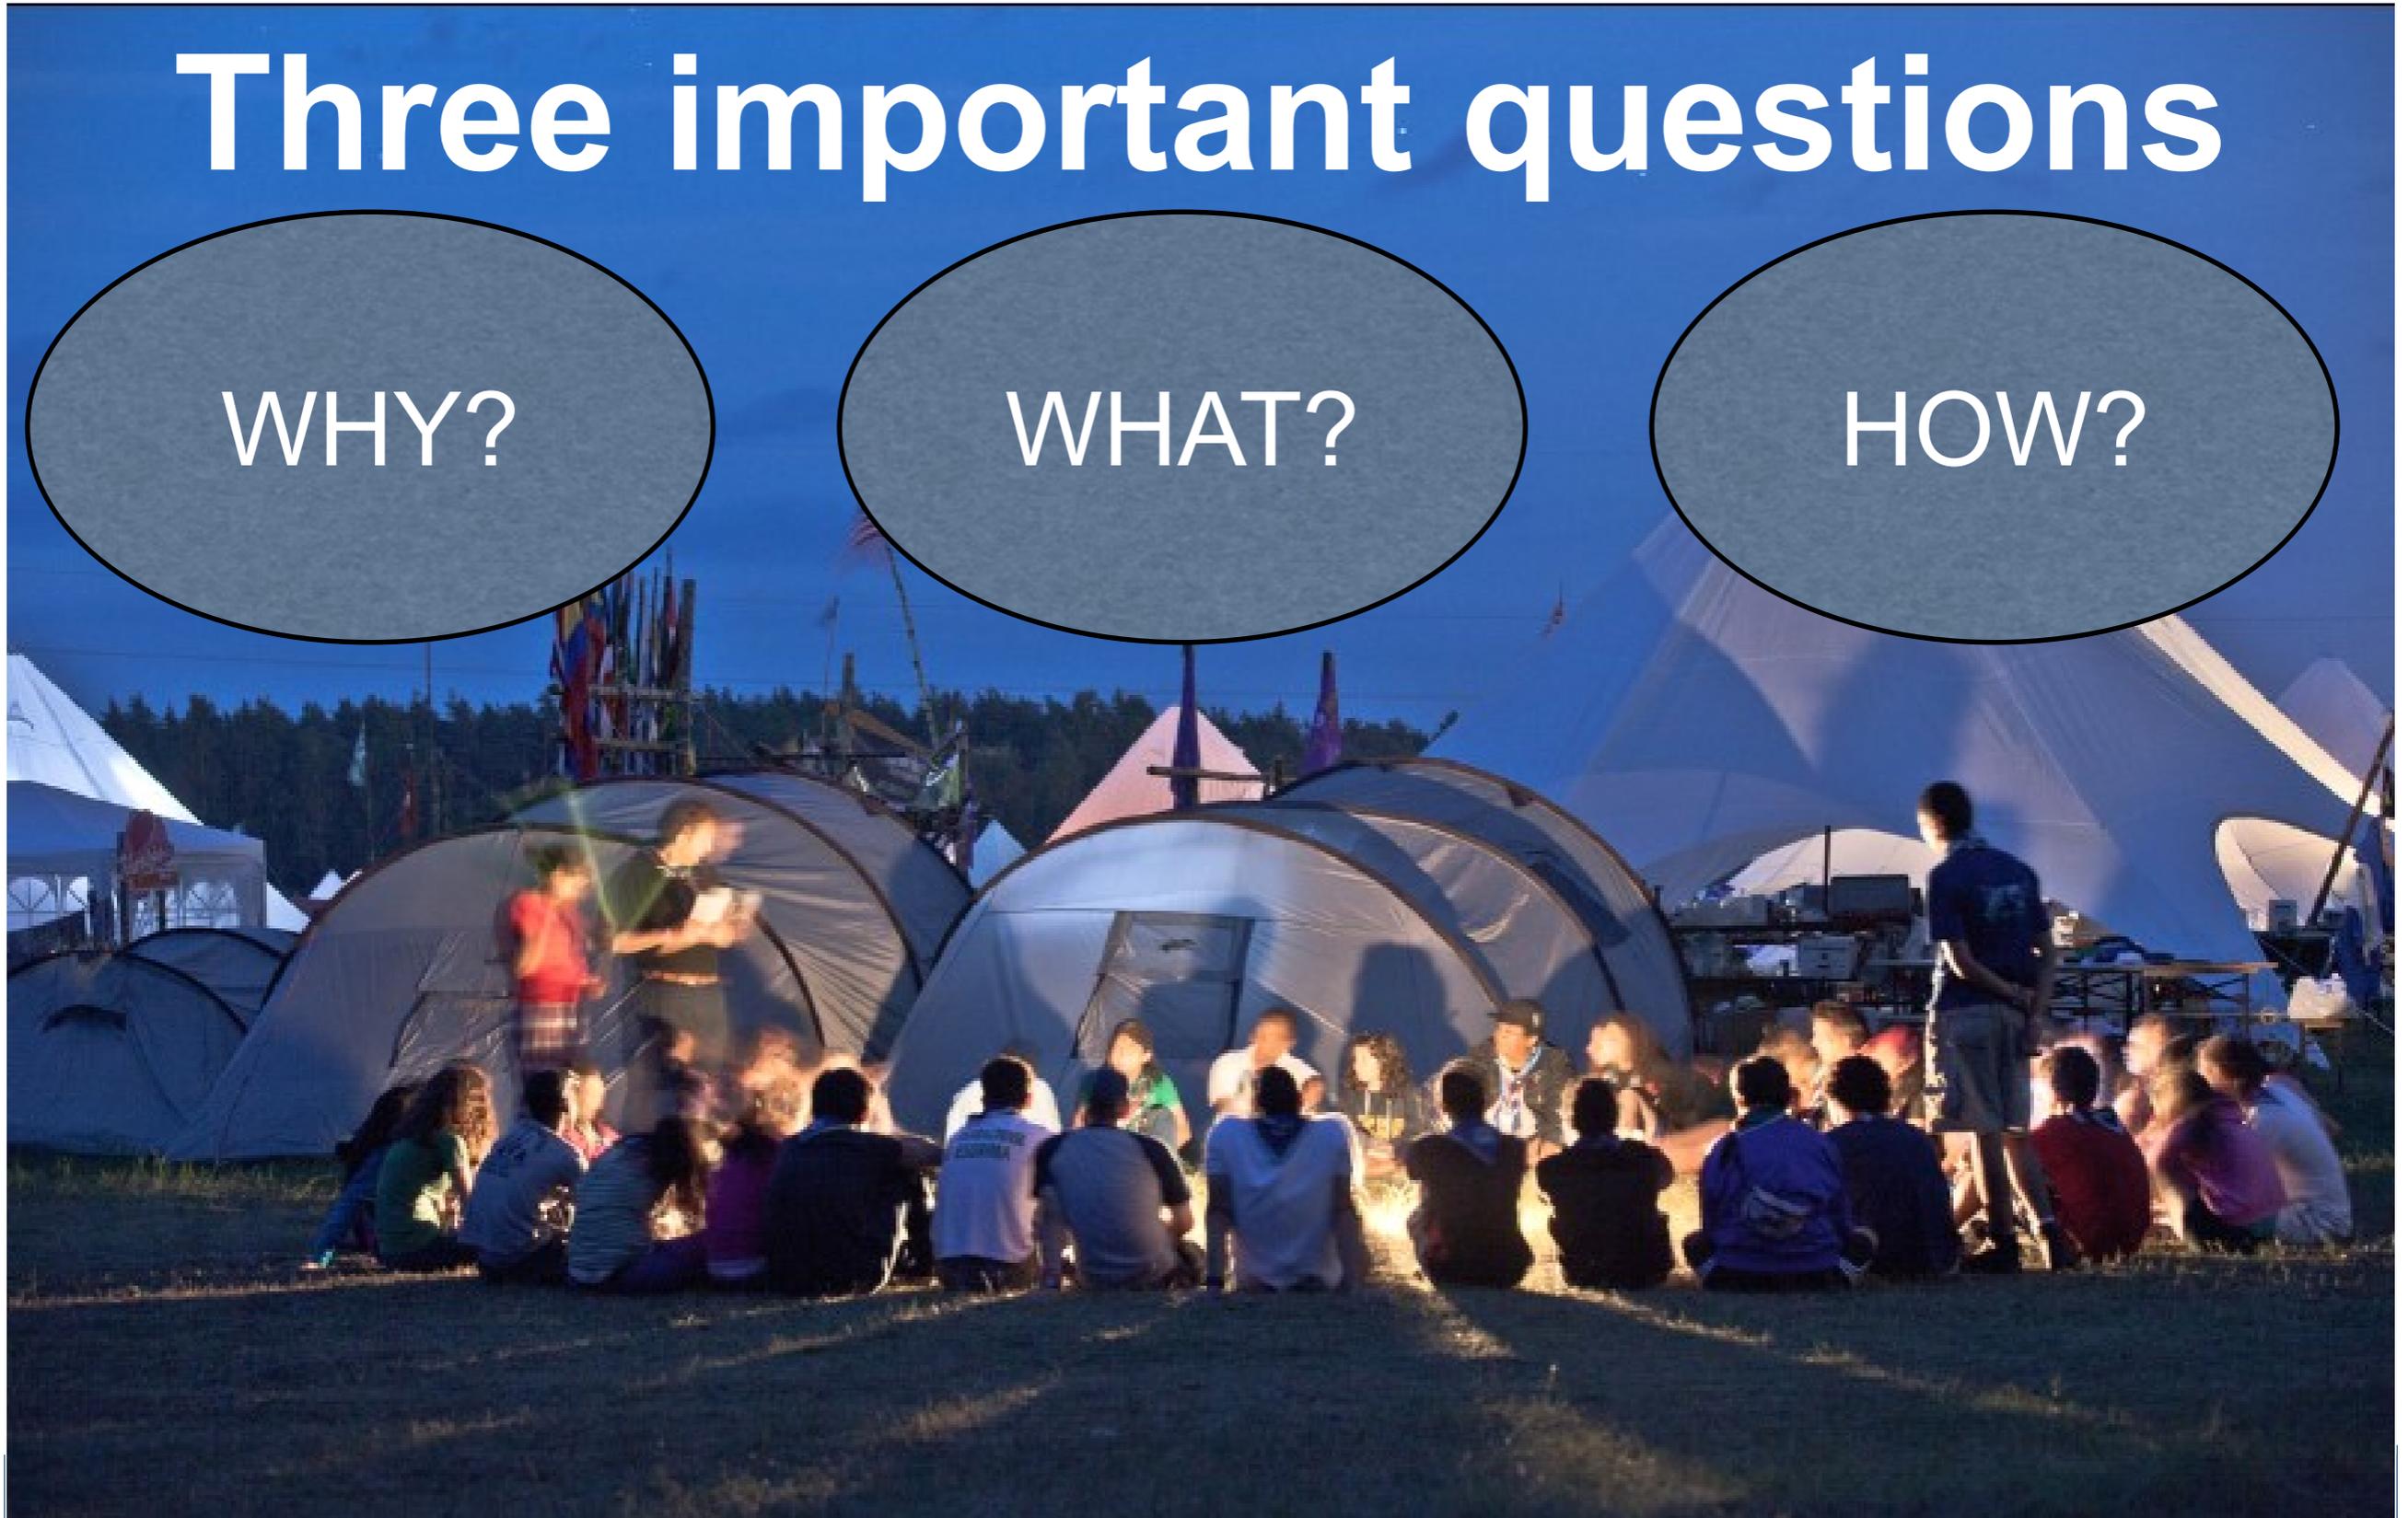

# Three important questions

WHY?

WHAT?

HOW?

# WHY

What is the main objective for the need of quality assurance?

# WHAT

Which parameters do you think should be fulfilled in order to "qualify" a scout group?

Mark them with MUST –  
SHOULD – COULD  
prioritization

The "MUST" parameters are  
not negotiable!

Why are these parameters  
important?

# HOW

Starting from the list  
HOW do you ensure the MUST:s?

What should be done by volunteers?  
Why? On what level should the  
volunteers work  
(local/district/national)?

What should be done by staff? Why?

How do you get the most out of the  
staff/volunteer/scout group  
relation?

*Think outside the box!*
