

KFUM-Spejdernes input to the Nordic working plan 2019-2021

The current mission, vision and samarbejdsgrundlag for NSK has existed for the past 6 years and as such been the foundation for the Nordic cooperation. This is why we believe that it is about time to start thinking about the process on renewing our mission, vision and samarbejdsgrundlag, so we ensure that the ambition for our cooperation continues to be relevant and in accordance with what we want to achieve.

We believe that it is important that NSK continues to be one step ahead strategically and would like to see a process resulting in a new/updated mission, vision and samarbejdsgrundlag become a part of the working plan 2019-2021. Our goal is not to write and specify a new mission and vision at the Nordic Scout Conference 2018, but to initiate the process afterwards resulting in a draft proposal for the next conference in 2021.

Draft text for the working plan

New point:

Updating the current mission, vision and samarbejdsgrundlag

Establish a working group consisting of representatives from Nordic countries who, together with NSK, will begin the process of drafting either a completely new version or an updated version of current the mission, vision and samarbejdsgrundlag. This process should result in a concrete draft proposal and put forward for approval at the Nordic Scout Conference in Norway in 2021.
